

Illustrations for Patients

Clinic-friendly visuals that simplify options, recovery, and shared decisions.
Dr. Tamer Elalfy — Educational Illustrations

Thyroid nodule treatment choices

A patient explainer comparing radiofrequency ablation with lobectomy and when each path fits.

Pilonidal disease treatment shift

A visual comparison between minimally invasive care and flap surgery for complex disease.

How framing changes consent

A communication-focused visual showing how wording affects understanding and shared decisions.

CONCLUSION: The statistical data is identical. The cognitive and physiological response is dictated by the framing strategy. (Based on Tversky & Kahneman's Prospect Theory & Hoffmann et al.) | Dr. Tamer Rushdy Elalfy

Surgical care during Ramadan

A practical visual story explaining emergency presentation, laparoscopy, discharge, and staged recovery.
